

## 18T Log Splitter (Hydraulic or PTO Driven)

### OVERVIEW

Engineered for performance and durability, the Browns Log Splitter is designed to meet the demands of farmers, contractors, and smallholders alike. Built with a heavy-duty frame and powered by a 18-tonne hydraulic ram, it effortlessly splits logs up to 1000mm in length with exceptional ease and efficiency.

Safety is paramount. This log splitter complies with the latest health and safety standards, featuring a two-handed operation system, a robust operator safety guard, and a non-slip work table to ensure maximum user protection during operation.

### FEATURES

- **High Splitting Force:** Delivers an impressive 18 tonnes of hydraulic force for tough log splitting tasks

- **Log Capacity:** Suitable for logs up to 1 metre in height
- **Spacious Work Table:** 600mm x 550mm table provides stable support during operation
- **Durable Splitting Wedge:** Hardened steel wedge ensures long-lasting performance
- **Robust Build:** Constructed from heavy-duty steel for enhanced durability
- **Safety-Focused Design:**
  - Two-handed operation for improved operator safety
  - Automatic wedge return when handle is released
  - Anti-slip table surface for increased stability
- **Flexible Mounting:** Fits both Category 1 and Category 2 three-point linkage systems
- **PTO Driven:** Operated via PTO pump and oil reservoir for efficient performance (65895)
- **Hydraulic Driven :** Hydraulically operated version (65895H)
