

Log Chop (Wood Guillotine)

OVERVIEW

The **Log Chop Wood Guillotine** is designed for effortless wood cutting, making it ideal for turning logs into firewood. Capable of cutting small trees and branches up to **255mm (10") in diameter**, the guillotine works effectively with both **softwood** and **hardwood**, leaving a clean, precise finish with every cut.

Its robust construction allows it to handle timber with embedded nails without causing significant damage to the blade, ensuring long-lasting durability and reliable performance.

FEATURES

- **Linkage Compatibility:** Fits both Category 1 and Category 2 three-point linkage

- **Power Requirements:** Operable with as little as 20 horsepower
- **Hydraulic Specifications:** Requires 5 gallons per minute at 2500 psi with a free-flow return
- **Durable Construction:** Splitting blade made from hardened steel for extended lifespan
- **Automatic Blade Return:** Chopping blade automatically returns when the handle is released
- **Safety Features:** Equipped with operator safety guards for secure operation
- **Efficient Log Handling:** Integrated chute for the smooth exit of cut logs
- **Transport-Friendly:** Table can be stowed away on the back of the machine for easy transport
- **Quiet Operation:** Low noise levels during operation
- **Clean Work Environment:** No dust produced during the cutting process

SPECIFICATIONS

Log Chop

Code	65840
Width	1016mm
Depth	915mm
Height	2032mm
Weight	218kg
Price	£2680.00
