Excavator 1-3 Tonne (EX1) (Post Hammer)

OVERVIEW

The Browns EX1 Post Hammer is purpose-built for use with 1–3 tonne mini excavators, offering a compact and efficient solution for fencing in tight or hard-to-reach areas.

Ideal for agricultural, landscaping, and light contracting applications, the EX1 provides powerful post-driving capability in a lightweight, easy-to-handle design. Its excavator-mounted configuration allows for excellent reach and maneuverability, especially in locations where traditional post drivers may struggle.

Robust, reliable, and simple to operate, the EX1 Post Hammer is the perfect attachment for efficient post installation with your mini excavator.

FEATURES

- 120kg driving hammer for efficient and powerful post driving
- Side tilt with level control for precise positioning and accurate driving
- Rubber-topped post cap protects and securely holds the post during installation
- Machine rope pulley with double-sealed bearings for long-lasting, maintenance-free operation
- Lay-on-floor design provides a safe and stable parking position for storage
