Front Loader & Telehandlers (LM2) (Post Hammer)

OVERVIEW

The Browns LM Post Hammer is specifically engineered for front mounting on **tractor loaders and telescopic handlers**, making it an ideal choice for operators looking for enhanced visibility, maneuverability, and efficiency during fencing operations.

The LM allows for precise post placement directly from the front of the machine, reducing setup time and increasing productivity. Its robust construction ensures reliable performance even in demanding ground conditions, while its user-friendly design makes it suitable for both agricultural and contracting use.

Whether installing new fencing or maintaining existing lines, the LM Front-Mounted Post Hammer delivers consistent results with minimal effort—making it a practical, high-performance solution for modern fencing tasks..

FEATURES

- Designed for use with front loaders and telescopic handlers
- Fitted with a powerful 180kg driving hammer for efficient post installation
- Large-throat post cap with machined sliders and securing spikes for added strength and stability
- Double-sealed bearing in the rope pulley ensures long-lasting, maintenance-free operation
- Rope and pulley mechanism integrated within the main beam for added protection
- Extendable leg allows for easy height adjustment and improved stability during use
- Safety guard fitted to the post cap for enhanced operator protection
- Rubber plate on post cap reduces noise during operation
- Mounting brackets available separately
