

## Hydraulic Swing Round (Post Hammer)

### OVERVIEW

Designed for farmers and contractors who require efficient and precise fence installation, the Browns Hydraulic Swing Round Post Hammer offers exceptional performance and reliability for high-volume fencing projects.

This robust, tractor-mounted post hammer features a hydraulically operated swing-round mechanism, allowing the hammer to be accurately positioned for each post. With hydraulic mast tilt in four directions and three height-adjustable legs, the unit adapts seamlessly to uneven or sloping terrain—ensuring stable operation in all conditions.

Equipped with a powerful 200kg hammer, it delivers the force needed to drive in heavy-duty straining posts with ease. A rubber-topped post cap provides added protection to maintain post integrity during operation.

Engineered for speed, precision, and durability, the Browns Hydraulic Swing Round Post Hammer is the ideal solution for professional fencing.

## FEATURES

- Compatible with Category 2 three-point linkage
- 200kg hammer delivers powerful post-driving performance
- Hydraulic swing-round arm with check valve for precise positioning
- Hydraulic mast tilt with check valve for versatile operation on uneven terrain
- Rubber-topped post cap minimizes damage and protects post integrity
- Integrated spirit level on mast ensures accurate, straight driving
- Height-adjustable legs on mainframe and mast for stability on sloped or uneven ground
